Allowable Subject Matter

1. The following is an examiner's statement of reasons for allowance: claims 1-6, 7-12, and 13-18 are considered allowable since when reading the claims in light of the specification, none of the references of record alone or in combination disclose or suggest the combination of limitations specified in the independent claims, specifically associating a distance parameter with each vector of the training set, the distance parameter indicating a distance from its associated vector to the opposite class; and determining a linearly independent set of support vectors from the training set such that the sum of the distances associated with the linearly independent support vectors is minimized as disclosed in independent claims 1, 7, and 13 of the instant application (as defined at pp. 4-6 of the specification of the instant application).
2. A practical application for the invention is disclosed on page 1: "SVMs are applied to the problem of predicting high resolution 3D structure in order to study the docking of macro-molecules."
3. The claimed computer readable carrier medium has been interpreted as being a computer, optical and/or magnetic data storage medium (as disclosed at p. 10).

The Prior art of reference *Fung et al. (Fung)*, "Minimal Kernel Classifiers", 2002 in view of *Cluster Analysis (CA)*, "Cluster Analysis", 2001 discloses an apparatus for representing a relationship between a goal and sub-goal. Strategies are applied to the sub-goals to achieve the goal.

Fung in view *CA* of does not teach determining a linearly independent set of support vectors from the training set such that the sum of the distances associated with the linearly independent support vectors is minimized as specified in the independent claims of the instant application.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
